Program Overview

Based on the feedback we received following last season we have made a few changes to how the Shooting Sports Program will be run. We feel that these changes will enable the program to better meet the needs and interest of our 4-H youth.

- **Informational & Ecology Meeting:** we will offer two meetings in February. Attendance at 1 of these meetings is mandatory. If you cannot attend one of the two meetings you will need to contact the program director prior to the last meeting to make alternate arrangements. Failure to do so will result in members not being able to shoot for fair premiums at the end of season county fair shoot. No exceptions will be made.
- **Parent Involvement:** Due to the amount of work involved in the setup and take down of the program parents will be required to help. There will be a sign-up sheet for parents to pick the sessions that will work best. Program directors will also be requesting that some parents assist in the running of the shooting lanes for individual sessions as needed. We feel this will allow our certified instructors to give more individual instruction to participants in need.
- **Program Schedule:** 5-shooting sessions will be offered with the last one being The Dunn County Fair Shoot. This will be a county shooting competition with scoring for each discipline along with an ecology test. We will be issuing awards and prizes for participants. This shooting session will be in conjunction with our end of the season party and cookout.
- **Shooting Disciplines:** Each of the first 4 shooting sessions will be held as open shoot times. Each Archery & Air Rifle session will run for 2 hours and open for participants to shoot as long or as short as they wish. In order to participate in the final shoot, participants must attend at least 2 of the shooting sessions.
- **Wildlife Ecology:** Wildlife Ecology will be held at both of the informational meetings. 4-H members wishing to participate in the shooting sport program will be required to attend one of these two Wildlife Ecology Program sessions. Each session will be approximately an hour long and will start at the conclusion of the informational meeting. If participants have not completed this requirement they will not be eligible to shoot at the County Fair Shoot for fair premiums.
- **End of Season Shoot & Party:** We will hold out yearend party in May before schools are out. We will be offering our final shooting session during this time. This final shooting session will be the Dunn County Fair Shoot, where participants who qualify will be shooting for awards in each class and discipline along with completing a wildlife ecology test. This will allow our participants a chance to experience what it is like to shoot in a competition with the comfort of knowing the instructors and other participants. We will also be having our cookout party during this time along with offer other fun shooting events, much like last year with parent/youth fun competitions and shootout games.

Archery & Air Rifle Sessions will run from 1:00 – 3:30 Followed by Shotgun / Trap at 4:00

Dunn County

4-H Shooting Sports Program

About Us

Our program is a county-wide 4-H project run by our county-wide team of certified 4-H shooting sports leaders. Our trained adult 4-H certified volunteer leaders (21 years old min.) have undergone state certification in their respective shooting disciplines. 4-H Assistant Volunteer Leaders are under the supervision of 4-H Certified Leaders. All of the disciplines are taught using materials prepared by the [National 4-H Shooting Sports Foundation](#) and the Dunn County 4-H Shooting Sports Central Committee. Also, 4-H youth leaders are sharing their skills with everyone.

Our Mission

We are dedicated to teaching firearm/archery safety and responsibility along with wildlife to all, while allowing kids to experience the fun and excitement of shooting sports and the outdoors. The goal of the 4-H Shooting Sports project is to promote youth development by instilling safe habits, self-discipline, teamwork, youth leadership, and knowledge in a safe, family-oriented, and encouraging environment. Shooting disciplines that are taught to 4-H members (ages 8 {and 3rd grade} to one year following high school graduation) include: archery, air rifle, shotgun, and wildlife ecology.

Dunn County 4-H members must be 12 years old and have completed the DNR WI Hunter Safety Program and received their Hunter Safety Certificate before participating in the shotgun program.

Our Philosophy

WE BELIEVE: Human Growth and development is the primary goal of the 4-H shooting sports program.

WE BELIEVE: Shooting Sports is an outstanding way to provide human growth and development opportunities.

WE BELIEVE: Introducing safe and responsible use of firearms and archery equipment opens valuable vocational and life-long recreational education.

- Competition can teach many valuable lessons; however competitive shooting at the local, district, state, or even national level is **NOT** the primary goal of the Dunn County 4-H Shooting Sports Program.
- Shooting Sports is part of the overall “Natural Sciences” program. Thus all Shooting Sports projects should incorporate aspects of ecological thinking, wildlife and conservation found in “4-H Natural Sciences.”
- Shooting Sports is an active, exciting, fun way to promote all of the basic goals of 4-H. It has tremendous potential for family involvement and personal growth. The safe use of firearms and archery equipment is paramount.

Participation

The Shooting Sports program is open to any youth regardless of that person’s race, color, creed, religion, sex, national origin, disability, ancestry, sexual orientation, and pregnancy, marital or parental status. In order to participate you must be between the ages of 8 (and 3rd grade) and 19 or one year following high school and be a member of a Dunn County 4-H club. To find a club near you, check with the University of Wisconsin Extension. Requests for reasonable accommodations for disabilities or limitations should be made prior to participation in the shooting sports project.

Dunn County 4-H Shooting Sports Member and Family Expectations

We are dedicated to teaching firearm/archery safety and responsibility along with wildlife ecology to all, while allowing kids to experience the fun and excitement of shooting sports and the outdoors.

The goal of the 4-H Shooting Sports program is to promote youth development by instilling safe habits, self-discipline, teamwork, youth leadership, and knowledge in a safe, family-oriented, and encouraging environment. Shooting disciplines that are taught to 4-H members (ages 8 {and 3rd grade} to one year following high school graduation) include: archery, air rifle, shotgun, and wildlife conservation. Supervision of this program is under the direction the Dunn County Shooting Sports Central Committee in conjunction with the UW Extension. All participants are responsible for their conduct to the 4-H Shooting Sports leaders supervising this program and UW Extension personnel.

A major element of shooting is stance. When working with shooters, particularly beginners, instructors frequently must use their hands to position them or correct their form.

1. A 4-H volunteer leader will ask the youth to change their shooting position if their stance is incorrect. If it is still incorrect the leader will ask the youth if the leader can reposition the project member.
2. A 4-H volunteer leader will ask the youth to reposition their safety equipment to prevent injury if the equipment is incorrectly positioned. If still incorrect the leader will ask the youth if the leader can reposition the equipment.

The following behaviors are requested of all members and their families. These behaviors contribute to a successful learning environment. As our family enrolls in the shooting sports project(s) (archery, air rifle, shotgun, and wildlife conservation), we agree to the following expectations.

We will:

- Attend all sessions in the planned program or notify a leader if you are unable to attend.
- Ensure that any member under the age of 16 is accompanied by a parent or responsible adult at each session; unless prior approval is given by the Program Director.
- Have read and reviewed the safety rules, range etiquette rules and am responsible to know and understand the rules.
- Use good judgment in selecting clothing (see range etiquette) appropriate to the occasion and weather.
- Use language and manners that will bring respect to ourselves and to Dunn Co. 4-H.
- Be in the assigned areas at all times. Aggressive play or similar actions inside/outside of the buildings is prohibited.
- Show courtesy and respect for all other people. Demonstrate good sportsmanship.
- Turn off cell phones during the shooting sessions. This is a distraction when training. Cell phones used during training will be taken away and returned at the end of the training.
- Help other members have a pleasant experience by making every attempt to include all participants in activities.
- Live up to your highest expectations for yourself so you can be proud of who you are and what you have done.
- Abide by the Dunn County 4-H Youth Behavior Agreement which you signed when you enrolled in 4-H.

Acceptance of the Dunn County 4-H Shooting Sports Member and Family Expectations

As a member, I understand that I need to follow the expectations set forth by the shooting sports program. If the expectations are not followed, I understand the adult Shooting Sports leaders will talk with me about what behavior needs to be changed. If the behavior continues the leaders will provide a written warning to my parent/guardian. If the behavior continues after the written warning, the situation will be referred to County Shooting Sports Central Committee and the UWEX 4-H Youth Development Educator for review. If the situation warrants, the member may be removed from the shooting sports project (s). *There will be no warnings for deliberate disregard of safety rules. In such a situation the member will be immediately removed from the program for everyone's safety and will not be able to return until a meeting with the member, their parents/guardian, the Program Director, the Shooting Sports Director and UWEX 4-H Youth Development Educator has been held to review the incident.*

Does the youth require an accommodation to participate in the shooting sports program > ___ Yes ___ No
 If yes, please describe. (use the space below or additional paper if necessary)
