Diseases of Evergreens

Tuesday, March 24, 2020

Join **Dr. Brian Hudelson**, Director of the University of Wisconsin-Madison Plant Disease Diagnostic Clinic, for his presentation on diseases of evergreens.

Evergreens are a common sight in the home landscape. They offer year-round interest and are well-suited for use as wind-breaks and privacy screens. But they are susceptible to a variety of diseases that cause brown needles, branch dieback and plant death. Come learn about their common diseases and strategies to manage them.

Where: Eau Claire County Extension Office
227 1st Street West, Altoona, WI 54720

When: Tuesday, March 24, 2020 from 7:00 p.m. to 8:30 p.m.

The program is free and open to the public but pre-registration is required.

Space is limited, so register early and plan to bring your evergreen questions.

For more information and to register, contact the Eau Claire County Extension office at 715-839-4712.

Dr. Hudelson is affectionally known as “Dr. Death” due to his love of plant diseases. He provides expertise in diagnosing plant disease problems and offers information on their causes and control.

Hosted by Extension Eau Claire County and Eau Claire Area Master Gardener Volunteers Association
