

## Farm Ready Research webinar series

Whether you're interested in dairy production, livestock production, or farm management, the University of Wisconsin-Madison Division of Extension's Farm Ready Research webinar series has the most up-to-date information for you.

Beginning in December 2020 and continuing through April 2021, Extension experts will host webinars throughout the week on topics ranging from determining cost of production to preventing on-farm injuries to navigating your farm business. Visit [go.wisc.edu/FarmReadyResearch](http://go.wisc.edu/FarmReadyResearch) to see the full list of topics and to register for sessions.

There is no charge to participate in the sessions, but pre-registration is required to allow access to the session. Extension recognizes that producers are receiving information for a lot of meetings this winter; the Farm Ready Research webinar website [go.wisc.edu/FarmReadyResearch](http://go.wisc.edu/FarmReadyResearch) is your place to find all information about UW-Madison Extension Agriculture programs.

"With so many webinars replacing in-person meetings, Extension created a 'one-stop shop' for information and registration for agriculture programs," said Trisha

Wagner, Extension Farm Management Program Manager. "A producer might be looking for one specific topic on this website but end up finding other webinars of interest to attend."

A sample week of Extension agricultural webinars begins on Tuesdays with Badger Dairy Insight from 1-2:30 p.m. and Wisconsin Beef Special Edition from 7-8:30 p.m.; Wednesdays focus on Small Ruminants from 7:30 – 9 p.m.; and then it's Farm Management Fridays from 11 a.m. – noon.

- Badger Dairy Insight topics provide guidance about farm safety and information for dairy farms of all sizes to remain competitive and profitable.
- Wisconsin Beef Special Edition combines content from UW-Madison Extension Cow/Calf Days and Wisconsin Cattle Feeder Workshops.
- Small Ruminant Series topics range from direct marketing to lamb care, forage analysis, and pasture management.
- Farm Management Fridays will highlight farm

business management information, resources and decision-making tools for farmers and agribusinesses to improve business profitability and lifestyles through informed decision-making.

### FARM READY RESEARCH

Join Extension's webinar series to learn the most up-to-date information on topics from dairy production to livestock production to farm management resources. Sessions begin December 2020.

See the full list of topics at [go.wisc.edu/FarmReadyResearch](http://go.wisc.edu/FarmReadyResearch)

*"Not all series run every week, so please check the online schedule that also includes more information about each session,"* said Megan Nelson, Extension Livestock Program
