

Dear 4-H Families,

We are thrilled to welcome you to the nation's largest positive youth development organization—4-H! As you embark on this exciting journey, we want to share a bit about what makes Dunn County 4-H such a special community.

Dunn County hosts almost 300 members and 50 volunteers in community clubs across the county. We build community with county wide projects and events throughout the year. We have project clubs that meet regularly, and volunteer project leaders who are ready to help you on your 4-H journey.

4-H empowers young people in grades K-13 to reach their full potential. Through our programs, youth across America learn invaluable skills in citizenship, leadership, and life. Whether you come from a city, a small town, or a rural area, 4-H welcomes you with open arms.

Our motto, "Learn by Doing," is at the heart of everything we do. Through hands-on projects, engaging activities, and the guidance of dedicated adult mentors, 4-H members gain practical experience and develop skills that will serve them throughout their lives.

While 4-H has deep roots in agriculture, our programs have evolved to meet the needs of today's youth. We now offer a wide range of opportunities focused on healthy living, personal growth, and cutting-edge fields like science, engineering, and technology.

We are excited to have you join our community and look forward to seeing the amazing things you will accomplish. Welcome to 4-H, where the possibilities are endless!

Don't hesitate to reach out if you have any questions. I look forward to seeing you at a club meeting or county event.

Sincerely,

Zachary Rozmiarek
Dunn County 4-H Educator

The Dunn County Leaders Council has committed to covering 25% of the cost for any state and national experience. More information can be found in the Clover Courier or by reaching out to the Extension Office.

Project Leaders

County wide project leaders are resources for you to utilize while exploring your projects. You may reach out to them for guidance. Some projects meet on a regular schedule, while others will meet periodically throughout the year. They may also be available to present at club meetings if their schedule allows. Reach out to the project leader or extension staff with any questions concerning projects.

Project Listings at a Glance

Find the project areas within each of the seven project groupings on these pages. Examples help youth and families think about what types of project-based learning they might participate in when they sign up for the project area. Learning experiences are not limited to what's listed here. Some counties may suggest what county fair departments the project areas align with.

Project areas are current as of October 2025.

 Expressive Arts	
Project area	Examples of project-based learning within project area
Art Appreciation	Celebrating art, art in your future
Computer Graphic Design	
Creative Writing	
Fiber & Textile Arts	Macrame, rug hooking, tie dyeing, wearable art, creative/cross stitchery, needlepoint, weaving, string/wire art, handmade dolls, knitting, crocheting, wool spinning, weaving
Folk Arts & Crafts	Basketry, beadwork, calligraphy, candle making, decorative boxes, decoupage, fuzzy posters, liquid embroidery, rock art, soap making, soap carving, wood art, wood burning, leathercraft, blacksmithing
Performing Arts	Clowning, dance, juggling, music, theater arts, puppetry
Photography	
Self-Determined–Expressive Arts	
Upcycling	Trash and Treasure
Videography	
Visual Arts	Block printing, ceramics, collages, drawing and painting, glasswork, jewelry making, metal enameling, mosaics, ornaments, paper art, plastercraft, posters, print making, pottery, rubber stamping, scrapbooking, Sculpey clay, stencil painting

 Leadership and Community	
Project area	Examples of project-based learning within project area
Civic Engagement	Citizenship
Cloverbud	
Cloverbud Youth Leader	
Communications	Demonstrations, sign language, speaking, Books on the Move
Community Service	Service learning
Exploring	
Global & Cultural Education	Latino cultural arts, international
History & Heritage	
Intergenerational	
Leadership	Youth leadership

Dunn County 4-H Membership Policy

Updated November 14, 2024

1. 4-H Membership is open to all youth regardless of race, color, creed, religion, national origin, ancestry, sex, sexual orientation, marital or parental status, pregnancy, veterans' status, non-job related conviction record or qualified disability.
2. To be eligible for 4-H membership, youth must be at least 5 years old and in grades K – 13 (one year after high school) of the current 4-H year. The 4-H Calendar Year runs from Oct. 1st through September 30th.
3. Cloverbuds, a pre-4-H member age program for youth in grades K – 2, allows younger kids to participate in club activities. *Cloverbuds shall have the same requirements as regular membership. Cloverbuds (Grades K-2) may not enroll in or exhibit livestock and/or animal projects at the county fair or other events under the 4-H name.*
4. It is highly recommended that members participate in an activity or event that showcases the skills they have gained through 4-H and their projects. Events include, but are not limited to, the Dunn County or Colfax Fair, performing arts festival, speaking and demonstration contest, or presenting at a club meeting.
5. Record books show members, leaders and parents what has been learned, if goals were met and events that members have participated in. Record book completion is optional at the county level for all 4-H members. Clubs may set their own Record book guidelines. Record books must be turned in to club leaders on the date specified by their club leaders, meeting the club record book guidelines as determined by each individual club.
6. Enrollment is required in a minimum of one project. Cloverbud members will be limited to the Cloverbud project.
7. Since the 4-H year starts on October 1 and ends on September 30, 4-H re-enrollments are due to the Extension Office by *November 15th*. All project changes must be done prior to May 1. New members may join a 4-H club on a year-around basis; however,
 - a. Local clubs have the option of establishing an enrollment deadline to facilitate local club functions.
 - b. Youth, *including cloverbuds*, must join by May 1 to be eligible to exhibit at the Dunn County Fair.
 - c. Project Groups (Dog Project, Shooting Sports, etc...) at the county level may establish enrollment deadlines for participation in specific program activities.
8. New 4-H clubs can be started at any time, with approval of the 4-H Educator. They must meet state requirements for 4-H Clubs.
9. Members should conduct themselves in a manner that is consistent with the goals of the 4-H program. Those members who do not conduct themselves according to the Dunn County Behavior Agreement Form (listed in 4-H Online) are subject to disciplinary actions. Use of alcohol or other illicit drugs by anyone participating in a 4-H event, regardless of age, will not be tolerated at any 4-H activity.

10. Graduation for 4-H members will be recognized as either high school graduation or the year in which membership is terminated due to age. In order to receive graduation recognition during the annual 4-H awards celebration (held during the Dunn County Fair), members and/or clubs must alert the Dunn County Extension Office by June 1st of the year in which they intend to graduate.
11. A club is approved by the 4-H Educator and by completing proper paperwork. To be a chartered 4-H club in Dunn County, the following criteria must be met and maintained:
 - a. Club Name
 - b. Five or more youth from at least two families
 - c. Adult leadership that has been approved through the Youth Protection process
 - d. Educational plan which meets the purposes of the 4-H program
 - e. Youth involvement in leadership and decision-making
 - f. Meeting on a continuing basis
 - g. Open to any youth eligible for 4-H membership, regardless of race, color, creed, religion, sex, national origin, disability, ancestry, sexual orientation, pregnancy, marital or parental status.
12. 4-H Clubs in Dunn County may approve and enforce guidelines and policies that exceed what is written in this policy but may not approve or enforce guidelines that undermine this policy. A club's guidelines and policy must be reflected in their bylaws.

Record Books

Record books are a reflection of the year in 4-H, not just what goes to the fair. It's encouraged for members to reflect on what they learned and what they did related to their project(s) throughout the whole year. For example, a member in an animal project may talk about a project meeting, vet appointments, practice and feeding habits, as well as showing at the fair. A member in foods may talk about meals, nutrition, project meetings, and non-fair baking/cooking as well.

Record books should become more independent, detailed, and polished as members get older. Documentation for younger members may likely be shorter. Record books are an excellent way to develop reflection, writing, and record keeping skills. When evaluating them, we take into account age-appropriateness. As members get older, this includes proofreading and spell-checking.

If you're uncertain, please feel free to look at the examples on the Dunn County 4-H record book website.

Record Books for Cloverbuds (K-2):

Cloverbud record books can be printed out and filled in by the child by hand, with parent help, or completed digitally. You may alter the format to fit your child's needs. Additionally, you may want to include "artifacts" (ribbons, certificates, pictures.) Hopefully, this is the first of many record books your child will have to remember their 4-H experience!

Record books for Younger Members (Grades 3-6):

Younger members have a choice between the traditional record book, and an easier alternative format. Both can be printed out and filled in by the child by hand, or completed digitally. Feel free to alter the format to fit your child's needs. Additionally, you may want to include "artifacts" (ribbons, certificates, pictures.) A variety of formats are accepted, some suggestions are on the county website. Parental help is fine, but as members get older, we encourage them to complete it more independently.

Record Books for Older Members (required for county awards):

Older members are encouraged to expand the record keeping, using either the traditional record book or one of the alternative formats on the county website. A list of requirements for record books can be found on the county record book website. This includes the cover letter and resume. We know these will be brief when members begin this format, but it grows with their 4-H experience. (and is an awesome life skill!)

Members are required to document at least one project, but may document more, if desired. Books for older members should be proofread and spell-checked, especially if being sent for county submission.

Record Book Awards

Starting in 4th Grade (or a member's first project year), members can apply to receive a **plaque**, and a **project disk**. The project disk should be the project that the member feels they have learned and/or achieved the most in. Members are encouraged to choose a different project each year. Members who feel like they excelled in more than one project can choose one disk and the option for an honor certificate for an additional project.

If you would like to be considered for any of the following awards, please indicate under the "Club and County Awards" area in your record book format. It is important to note that record books are also utilized for other county awards later in the year.

Cover letters and resumes should also accompany county awards. We know that these will be shorter for younger members and that's OK.

Junior Achievement Award (Certificate)

This award is meant to honor junior 4-H members who have completed outstanding project and club work illustrated through their record book. It is received by a select few 4-H members in grades 3rd – 6th who have completed particularly excellent work. A recipient may only receive this award once.

County Project Awards (Medal)

This award is meant to honor 4-H members who have done an exceptional job and gone beyond the minimum requirements of the project and demonstrated Record Book. It is received by a select few 4-H members in grades 7th and older who have accomplished particularly excellent work. A recipient may only receive a medal every other year in a project area.
